

Overview Presentation

August 2024

Disclaimer

This presentation and the accompanying oral presentation, if any, contain forward-looking statements. All statements other than statements of historical fact contained in this presentation, including statements as to future results of operations and financial position, planned products and services, business strategy and plans, objectives of management for future operations of Health Catalyst, Inc. and its subsidiaries (“Health Catalyst” or the “Company”), market size and growth opportunities, competitive position and technological and market trends, are forward-looking statements. In some cases, you can identify forward-looking statements by terms such as “expect,” “plan,” “anticipate,” “intend,” “target,” “project,” “predicts,” “shall,” “potential,” “explore” or “continues” or the negative of these terms or other similar words. You are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. The Company assumes no obligation to update any forward-looking statements or any other information included in this presentation after the date of this presentation, except as required by law.

The forward-looking statements contained in this presentation and the accompanying oral presentation are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause actual results or outcomes to be materially different from any future results or outcomes expressed or implied by the forward-looking statements. These risks, uncertainties, assumptions and other factors include, but are not limited to, (i) changes in laws and regulations applicable to the Company's business model; (ii) changes in market or industry conditions, regulatory environment, and receptivity to the Company's technology and services; (iii) results of litigation or a security incident; (iv) the loss of one or more key clients or partners; (v) the impact of the challenging macroeconomic environment (including high inflationary and/or high interest rate environments) on the Company's business and results of operations; (vi) the use of proceeds from the loans under the Company's credit facility, availability of the delayed draw facility and the Company's ability to refinance existing indebtedness, and (vii) changes to the Company's abilities to recruit and retain qualified team members. These risks and uncertainties may also include those described under the heading “Risk Factors” and elsewhere in the Company's most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q on file with the Securities and Exchange Commission (the “SEC”) and the Company's other filings with the SEC. Moreover, the Company operates in a very competitive and rapidly changing environment, and new risks may emerge from time to time. It is not possible for the Company to predict all risks, nor can the Company assess the impact of all factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results or outcomes to differ materially from those contained in any forward-looking statements the Company may make.

In addition to the Company's GAAP financial information, this presentation may include certain non-GAAP financial measures. These non-GAAP financial measures are not meant as a substitute for GAAP financial measures, but are included solely for informational comparative purposes. The non-GAAP measures have limitations as analytical tools and you should not consider them in isolation or as a substitute for the most directly comparable financial measures prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures versus their nearest GAAP equivalents. Other companies, including companies in Health Catalyst's industry, may calculate non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of the Company's non-GAAP financial measures as tools for comparison. Reconciliations of GAAP to non-GAAP amounts for the periods presented are provided in schedules accompanying this presentation and should be considered together with the Company's audited and unaudited financial statements included in the Company's most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q on file with the SEC.

This presentation also contains estimates and other statistical data made by independent parties and by the Company relating to market size and growth and other industry data. These data involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. The Company has not independently verified the statistical and other industry data generated by independent parties and contained in this presentation and, accordingly, it cannot guarantee their accuracy or completeness. In addition, projections, assumptions and estimates of its future performance and the future performance of the markets in which it competes are necessarily subject to a high degree of uncertainty and risk due to a variety of factors. These and other factors could cause results or outcomes to differ materially from those expressed in the estimates made by the independent parties and by Health Catalyst. The Company's growth and financial targets included herein are based upon the Company's historical performance and its current plans, estimates, and expectations, and are not a representation that such plans, estimates, or expectations will be achieved.

This presentation shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of any securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

Health Catalyst Overview

We are a leading provider of data and analytics technology and services to healthcare organizations

Comprehensive Solution

1 
Data Platform

Integrate data in a flexible, open, and scalable platform

2 
Applications

Deliver insights on how to measurably improve

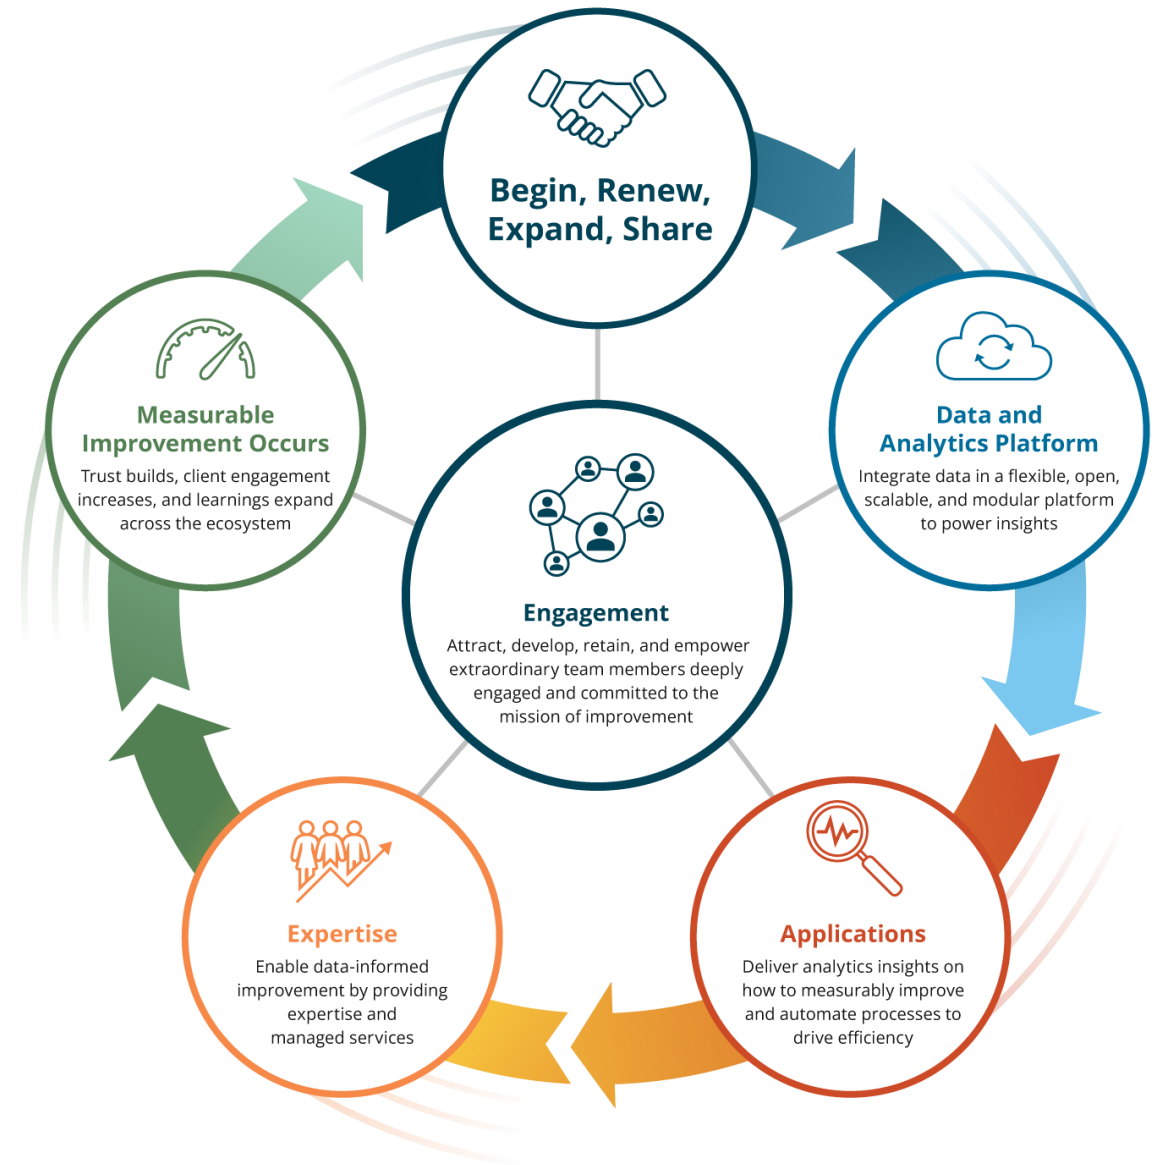

3 
Services Expertise

Enable and accelerate data-informed improvement

Our clients, which are primarily healthcare providers, use our Solution to manage their data, derive analytical insights to operate their organizations, and produce measurable clinical, financial, and operational improvements

Our mission is to **be the catalyst** for massive, measurable, data-informed healthcare **improvement**

Our **flywheel** represents **how** we accomplish our mission with each client—**our company strategy**.

TARGET⁽⁶⁾

(1) According to estimates in 2019. Research estimates 25% of U.S. healthcare spending is wasteful in nature, implying approximately \$1 trillion of waste amongst \$3.8 trillion of total healthcare expenditure in 2019

(2) Health Catalyst has multiple new offerings in Tech-enabled Managed Services (TEMS), an offering area in which we have seen materially more sales and pipeline traction over the last several quarters. As a result, we are assessing the TAM (Total Addressable Market) for these offerings. Our current expectation is that the company's total TAM is materially higher than previously estimated as a result of these TEMS offerings. More details will be provided over time.

(3) As of September 2023

(4) In 2023

(5) Overall range from 2017 – 2023 for Platform Subscription Clients, as further defined in our Form 10-K (e.g., excludes clients acquired in Medicity, Able Health, Healthfinch, Vitalware, Twistle, KPI Ninja, ARMUS, ERS, Carevive and Lumeon acquisitions and other non-Platform Subscription Clients).

(6) See "GAAP to Non-GAAP Reconciliation: Adjusted EBITDA" for more information about Adjusted EBITDA, including the limitations of Adjusted EBITDA. We have not provided forward-looking guidance for net loss, the most directly comparable GAAP measure, to Adjusted EBITDA, and therefore have not reconciled guidance for Adjusted EBITDA to net loss, because there are items that may impact net loss, including stock-based compensation, that are not within our control or cannot be reasonably forecasted.

We Solve the Key Problems Facing Healthcare Today

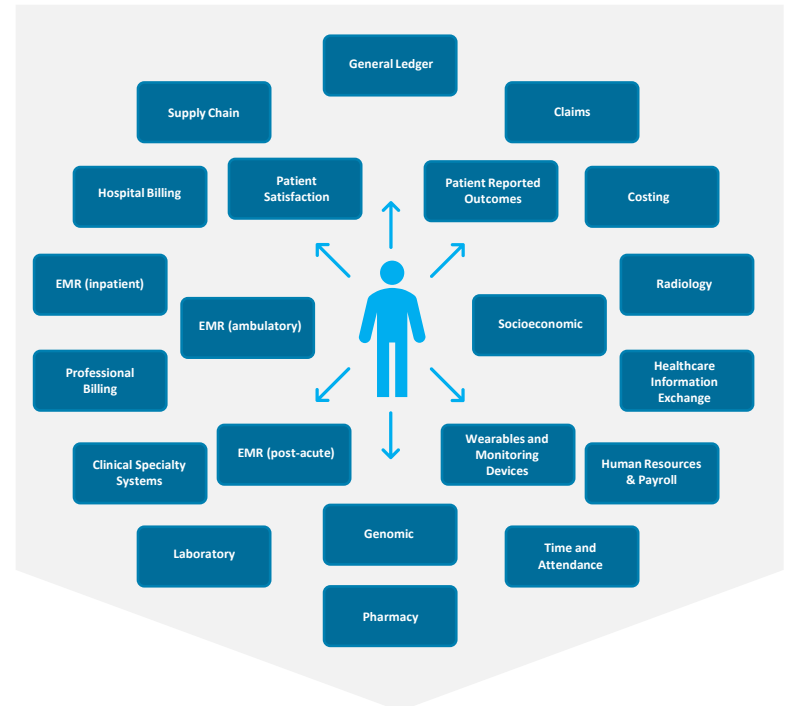

Waste & Financial Pressure

- A volume-based US healthcare reimbursement model with \$1 trillion/year of waste ⁽¹⁾ continues to put pressure on providers' operating margins
- This has led insurers to change to a value-based reimbursement model, but this will take time

Changing Economics

- During the next few decades, both margin pressure and the move to value-based care present economic complexity and change that require **data, analytics & improvement** expertise

Data Complexity

Managing this long-term challenge and complexity requires a strategic partner who offers an end-to-end, comprehensive solution across data, analytics & improvement, allowing health systems to focus on their core competency of care delivery

Blue Chip Client Base

>630 clients⁽¹⁾ include academic medical centers, integrated delivery networks, community hospitals, large physician practices, ACOs, health information exchanges, health insurers, and other risk-bearing entities

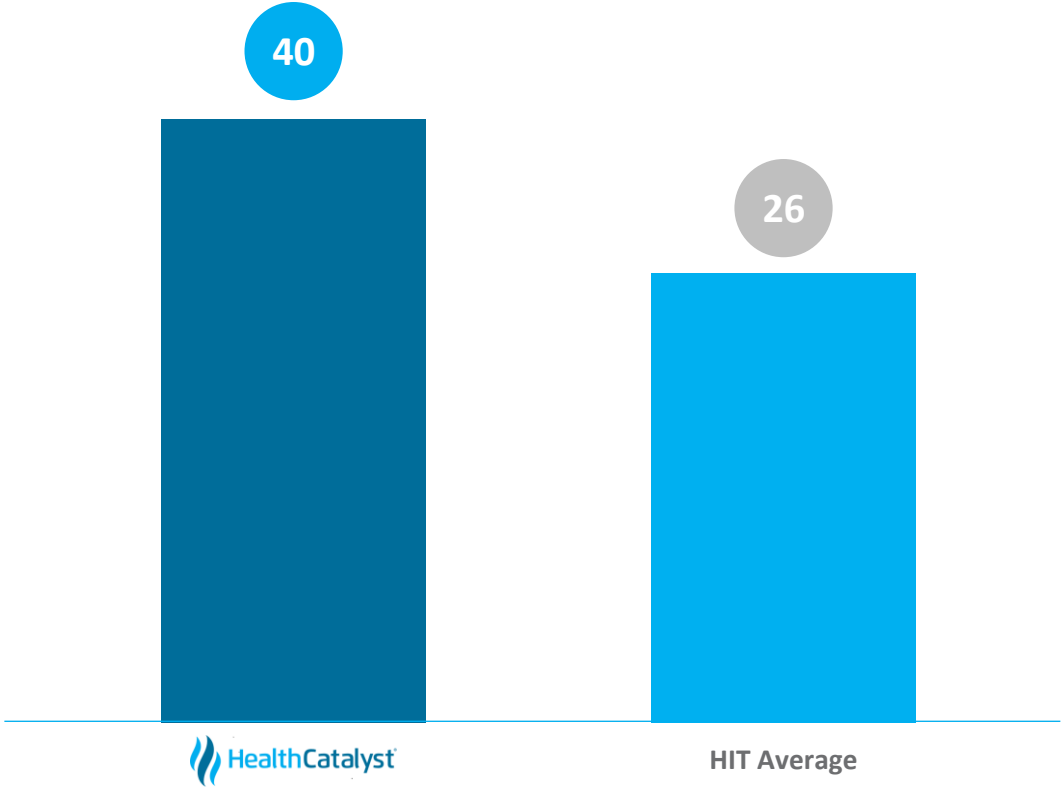

Externally-Validated Industry Leadership

Broad Recognition

KLAS Evangelism Score⁽¹⁾

(1) Similar to a net promoter score, as of December 31, 2023. Overall evangelism score is an average of each Health Catalyst solution's average evangelism scores.

Health Catalyst Solution for Data-informed Improvement

Simplify and focus on 5 core areas of differentiated client value. With every client and across every solution, ensure that consistent, measurable improvement goals are set, achieved, and communicated regularly

Use Case Areas of Focus

 Clinical Improvement	
Technology	Services
<ul style="list-style-type: none"> ▪ Embedded Refills ▪ Twistle Patient Engagement ▪ Analytics accelerators in pareto areas of clinical improvement 	<ul style="list-style-type: none"> ▪ Domain Expertise: <ul style="list-style-type: none"> –Clinical improvement –Patient flow –Perioperative supplies –Population health –Care management –Patient safety

Measurable Data-Informed Improvement for 2024 Focus Areas

Examples from all 5 areas of focus

Use Case Areas of Focus

Clinical Improvement

- **\$22M** cost savings and **\$1.9M** in new revenue – improved patient flow*
- **\$17.4M** AI-enabled patient blood management improvements
- **\$3.4M** cost savings from automating medication refill processes

Revenue & Cost Improvement

- **\$75M** cardiovascular service line cost savings*
- **\$10M** revenue increase enabled by PowerCosting
- **\$7.8M** charge capture improvements

Ambulatory Operations

- **\$25.4M** revenue increase through improved patient access
- **\$7M** cost savings over three and a half years
- **\$2.2M** increase in revenue and **55K** care gaps closed*

Infrastructure Areas of Focus

Measures & Registries

- **38%** relative improvement in quality scores
- **10% to 25%** reduction in abstraction time
- **93%** percent inter-rater reliability*

Data & Analytics

- **\$32.2M** cost reduction through AI-enabled care management
- **\$10M** AI-enabled variable cost reduction
- **>\$3M** indirect labor cost savings*

Note: Metrics represent examples of improvements across all five areas of focus, for specific clients. Data as of February 2024.

Health Catalyst Ignite Data and Analytics Platform: Architecture

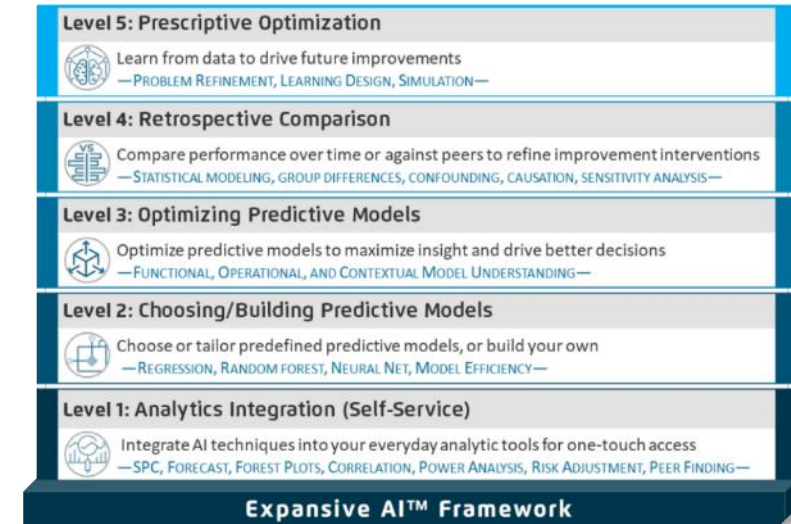

Health Catalyst Ignite Platform Leverages Healthcare.AI

Health Catalyst has invested in machine learning and augmented intelligence models over the past few years, primarily through its Healthcare.AI cloud-native platform

Healthcare.AI™ by Health Catalyst

- Deployment of machine learning/predictive models to optimize client workflows. Examples include:
 - Point of care (e.g., readmission prevention)
 - Point of service (e.g., financial assistance predictive models)
 - Revenue generation (e.g., marketing outreach)
 - Management (e.g., forecasting and budgeting)
 - Operations (e.g., COVID and staffing “war rooms”)
 - Effect estimation (e.g., drug/device/program evaluations)
- **Impact:** Helping healthcare leaders face an unprecedented list of increasingly critical issues across revenue, cost, and quality

Tailwinds

- Health Catalyst will continue to differentiate itself by leveraging cross-industry technologies and layering them on top of healthcare-specific content for end markets
- Anticipate AI integration will increasingly play a role in tech enablement and improved efficiency of TEMS relationships
- Importance of clean, comprehensive data sets for AI use cases serves as a long-term tailwind for our data platform
- The increasing prevalence of AI will increase the necessity for technology expert services as well as seamless integration with business intelligence tools

Generative AI

- Health Catalyst is actively leveraging Generative AI for internal efficiency use-cases including
 - Chart abstraction for registries and related submissions
 - Code generation and translation
- Generative AI can enable clients to make data-informed decisions to increase quality, speed, and cost of healthcare delivery
 - Building on Health Catalyst reputation of improvement, optimization, and ensuring aims are met
 - Helping clients convert hopes and concerns into plans and measurable improvement

Health Catalyst Ignite Platform Leverages Healthcare.AI (cont'd)

High-value analytics enables users to see what is right In front of them

- 96% of people draw meaningfully erroneous insights
- Improve >10x with Healthcare.AI
- True of analysts through board of directors
- True of people who are confident or question their abilities
- >75% of clients using Healthcare.AI for substantive decisions
- >90% of clients using Healthcare.AI for some purpose (including Data Quality)
- 5-25K calls per day

Typical Time Series

Healthcare.AI

Highly Differentiated, Comprehensive Solution

(1) Health Catalyst has multiple new offerings in Tech-enabled Managed Services (TEMS), an offering area in which we have seen materially more sales and pipeline traction over the last several quarters. As a result, we are assessing the TAM (Total Addressable Market) for these offerings. Our current expectation is that the company's total TAM is materially higher than previously estimated as a result of these TEMS offerings. More details will be provided over time.

More

A Health Catalyst Success Story

Tech-Enabled Managed Services improves quality, reduces costs, and optimizes engagement

As the financial and operational burden of reporting quality measurement in healthcare continues to increase, systems such as Banner Health and Community Health Network (CHNw) look for options to ease their resource spend in this area. These organizations partnered with Health Catalyst in a tech-enabled managed services arrangement for clinical chart abstraction. The result: lower costs, increased value from data, and a positive experience for team members.

Challenges & Impact

- Huge and increasing demand for data collection and abstraction, driven by registry reporting
- Numerous clinicians involved in documentation, abstraction
- Data used only for reporting, not analysis for improvement
- **Impact:** Difficulty obtaining timely, accurate data; lost opportunity to learn from data; high costs of manual chart abstraction

Solution

- Leveraged DOS™ platform to automate the extraction of required data.
- Tech-Enabled Managed Services provided by Health Catalyst:
 - Clinical data abstraction
 - Data analysis: identify variation and trends in cost, quality, and productivity
 - Support for the prioritization of improvement opportunities

Results

Tech-Enabled Managed Services has improved data quality and yielded these measurable results:

- **15% reduction** in labor costs for clinical chart abstraction at CHNw
- **49% relative improvement** in clinical chart abstraction efficiency at Banner Health
- **30% relative improvement** in team member engagement

Carle Health: Long-term, Significant Partnership Expansion

Five-year deal signed in Dec 2022, worth up to ~\$80M over the life of the contract

“Carle Health is excited to announce this novel partnership with Health Catalyst. When combined with our own clinical expertise, **Health Catalyst will help us transform the way we use data to support organizational decisions and improve patient outcomes.** As a transformative health care system, it’s important that we lay the groundwork to ensure we’re able to provide the right solutions that **blend data, analytics, and medical expertise to optimize the quality of care we provide** for everyone who depends on us.”

- Matt Kolb ⁽¹⁾, Executive Vice President, Chief Operating Officer at Carle Health

Partnership Expansion Overview

- **Carle Health is an integrated health system based in Urbana, Illinois** that includes 5 hospitals, multi-specialty physician group practices with >1,000 docs & Health Alliance Medical Plans
- Health Catalyst and Carle first entered a partnership in 2020. This **five-year expansion** includes an all-access technology subscription, **plus tech-enabled managed services in the areas of analytics, data management, reporting, abstraction and project management**
- This significant expansion **makes Carle one of Health Catalyst’s largest enterprise & tech-enabled managed services clients**

Contractual Terms

- Five-year deal with Carle Health, worth up to **~\$80M** over the life of the contract (**\$16M ARR**)
- At **\$11M+ ARR expansion**, it represents one of the **largest expansion contracts in the company’s history**
- The contractual growth is inclusive of both technology expansion and **tech-enabled managed services** (more heavily weighted toward this revenue stream)

Strengthening the Partnership

- **Carle Health made recent decision to become a meaningful shareholder** with the open market purchase of Health Catalyst common stock
- Matt Kolb ⁽¹⁾, Executive Vice President and COO of Carle Health, was **appointed to Health Catalyst’s Board of Directors, effective July 1, 2023**

⁽¹⁾ Matt Kolb also serves as a member of our Board of Directors.

World-class Team Member Engagement

Health Catalyst benefits from highly-engaged team members with low turnover rates, which enables client satisfaction, renewal, and expansion

The Health Catalyst Operating Principles

The principles that govern our daily interactions

Improvement

- We are deeply committed to enabling our clients to achieve and sustain measurable clinical, financial, and operational improvements
- We nurture deep, long-term partnerships because achieving and sustaining improvement is a transformational journey (not a quick trip)
- We pragmatically prioritize innovations that accelerate improvement
- We attract, develop, and retain experts who know best practice in their domain, leverage analytics for insight, and accelerate adoption for sustained improvement

Accountability

- We are all accountable to ourselves and to one another to proactively show up every day in support of our company's mission
- We make decisions that balance and optimize the interests of our teammates, clients, patients, and shareholders
- We avoid an entitlement mentality and are good stewards of our assets
- We don't micro-manage and we show trust while also having high expectations of ourselves and of one another

Respect

- We recognize the immeasurable value of every individual
- We listen carefully to one another and learn from each of our colleagues
- We care deeply about our colleagues, including teammates, clients, patients, and shareholders
- We benefit from one another's diverse backgrounds and experiences, and are unified by our company's mission

Transparency

- We are honest and compassionate in our interactions with others and with ourselves, even if the truth is hard
- We strive to live up to the Health Catalyst Way in all settings
- We treat confidential information appropriately, and we protect the private data of our clients' patients
- We recommend the best solutions for our clients whether or not those solutions come from Health Catalyst

The Health Catalyst Cultural Attributes

The attributes we prioritize in our hiring, retention, and promotion

Continuous Learning

- I can share with and learn from others
- I love to learn, and I am a lifelong student
- I recognize my mistakes and correct them quickly
- I seek and respond favorably to feedback and coaching
- I value my autonomy and use it to gain new knowledge and skills
- I recognize that diversity of perspectives leads to better decisions
- I am self-aware and seek improvement, personally and professionally
- I watch, listen, and learn from others; thank them for their teachings; and apply the teachings to the mastery of my profession; and I do the same for others

Commitment

- I stick to the task until the job is completed
- I recognize that not every part of my job will be fun
- I make personal sacrifices, as needed, to get the work done
- I am willing to contribute more than my fair share to a project
- I have a deep, long-term commitment to healthcare improvement
- I lead a balanced, healthy life that enables me to sustain my pace

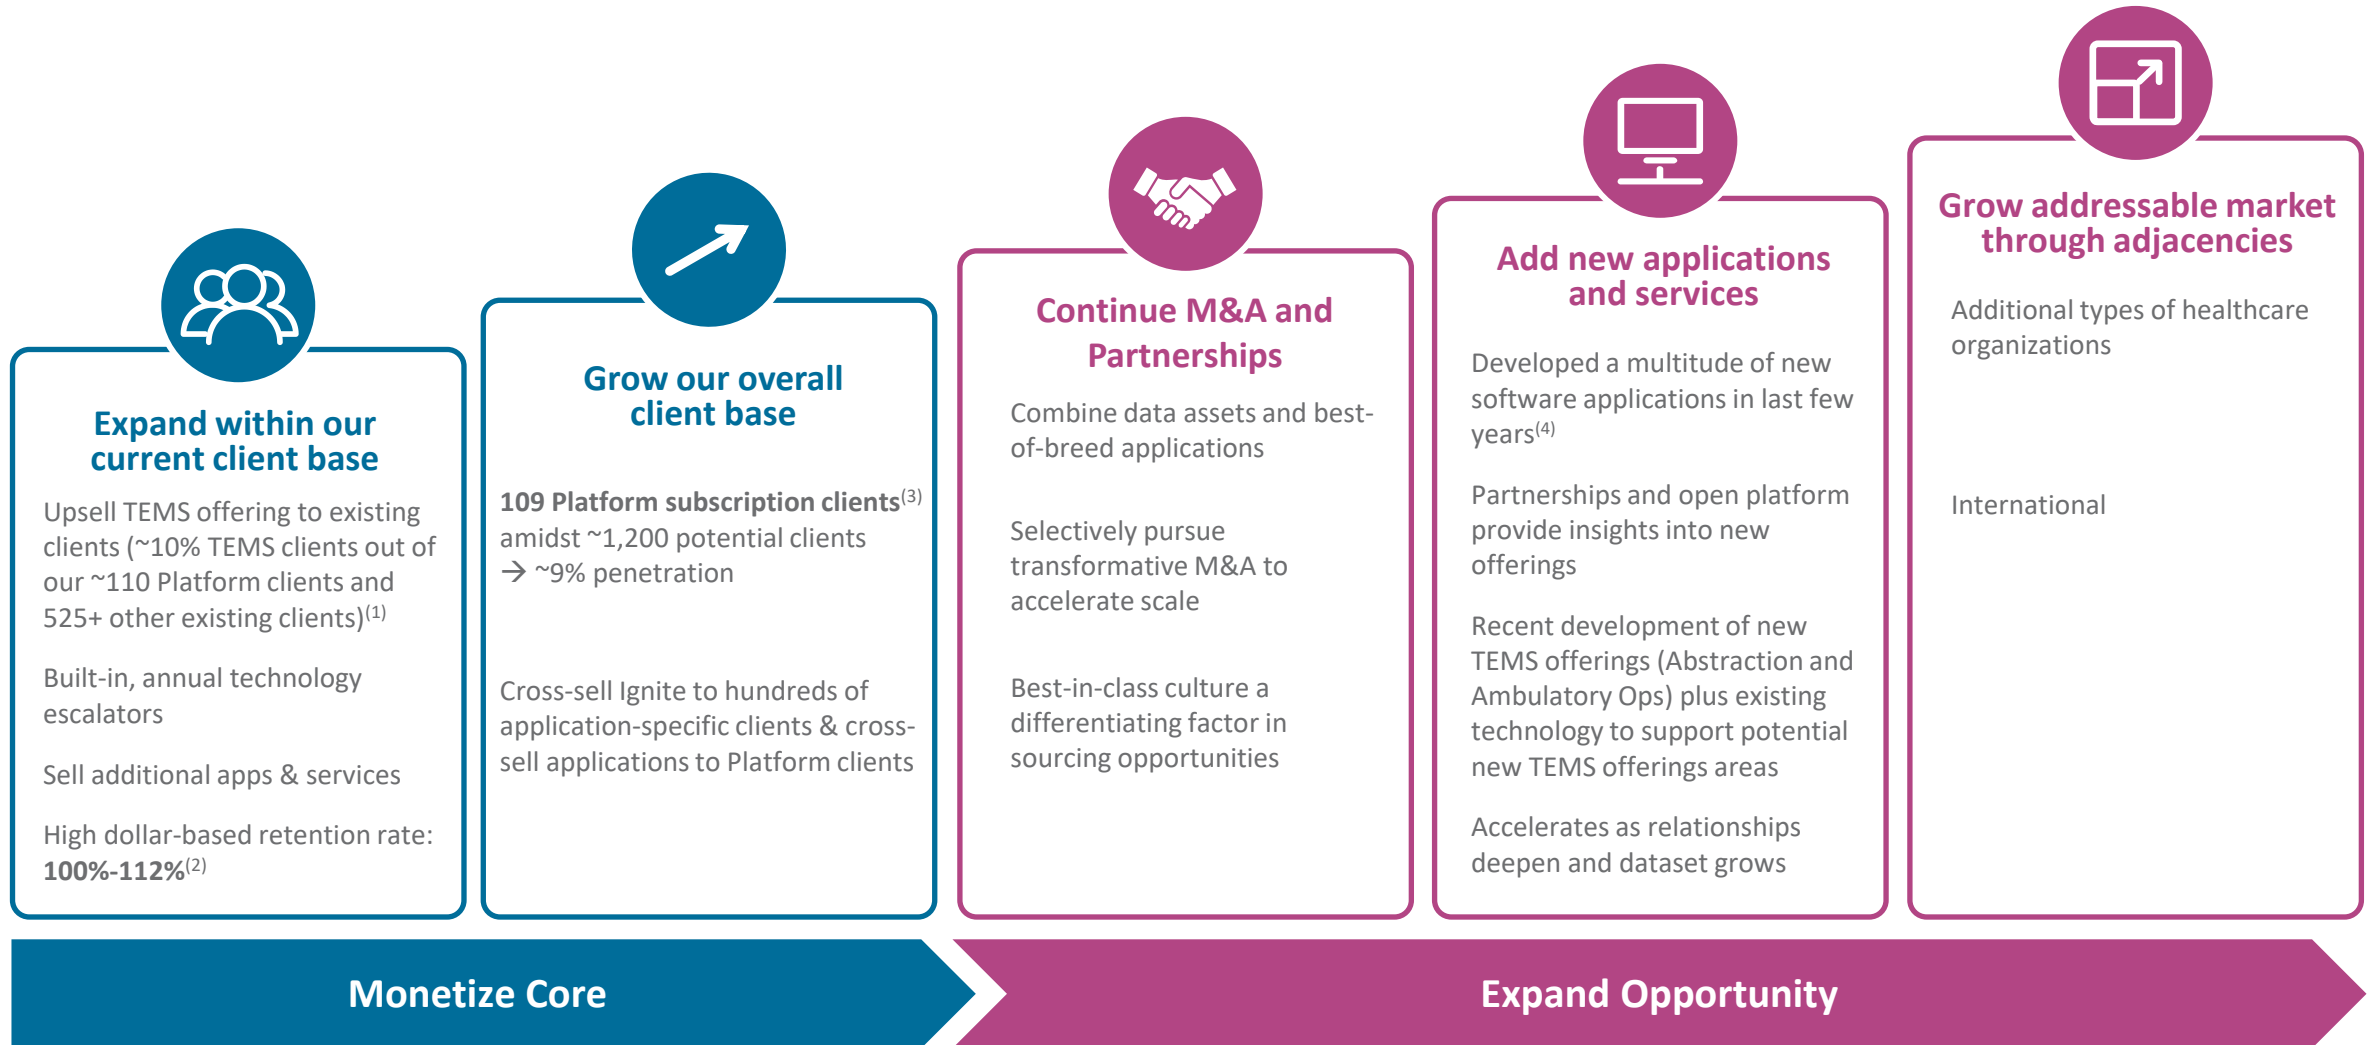

Humility

- I listen first
- I serve others without looking for recognition
- My first assumption with others is positive intent
- I often acknowledge others for their contributions
- I am secure in my own abilities (quiet self-confidence)
- I seek to improve myself before trying to improve others
- I am excited when others succeed, and I offer sincere praise
- I empower others to do their best and give proper credit to others
- I frequently express gratitude and appreciation to those around me

Excellence

- I strive for excellence and quality in all aspects of my work; I show up to fulfil my role in the company's mission to the best of my ability
- I recognize the importance of excellence in pursuit of our mission
- I strive to be well informed about events and trends in healthcare, data and analytics, and improvement
- I actively contribute to the company's pursuit of excellence—in the technology we build, in the services we provide, and in the functions that support this important work
- I recognize and ask for help when I need it

Multiple Strategic Levers to Drive Durable, Long-Term Growth

(1) As of December 31, 2023.

(2) Overall range from 2017 - 2023 for Platform Subscription Clients, as further defined in our Form 10-K (e.g., excludes clients acquired in Medicity, Able Health, Healthfinch, Vitalware, Twistle, KPI Ninja, ARMUS, ERS, Carevive and Lumeon acquisitions and other non-Platform Subscription Clients).

(3) As of December 31, 2023.

(4) Added to this figure via M&A.

Health Catalyst Q2 2024 Financial Highlights & Key Themes

Q2 2024 Revenue, Net Loss and Adjusted EBITDA

- Q2 2024 Total Revenue: \$75.9M; above guidance midpoint (range of \$73.5M to \$76.5M)
- Q2 2024 Net Loss: \$13.5M; no guidance was previously provided
- Q2 2024 Adjusted EBITDA⁽¹⁾: \$7.5M; above guidance midpoint (range of \$5.0M to \$7.0M)

2024 Guidance and Forward-Looking Commentary⁽²⁾

- Reiterating FY 2024 Revenue guidance of \$304M to \$312M
- Guiding to Q3 2024 Revenue of \$74.5M to \$77.5M
- Reiterating FY 2024 Adjusted EBITDA⁽³⁾ guidance of \$24M to \$26M
- Guiding to Q3 2024 Adjusted EBITDA⁽³⁾ of \$6.0M to \$8.0M
- We are updating our FY 2024 bookings expectations for both net new Platform Subscription Clients⁽⁴⁾ and Dollar-Based Retention Rate.
 - For FY 2024, we anticipate net new Platform Subscription Clients⁽⁴⁾ in the low 20s with an average ARR + non-recurring revenue falling between \$400,000 and \$1 million.
 - For FY 2024, we anticipate Dollar-Based Retention of 100% - 106%. This Dollar-Based Retention Rate range excludes an additional expected ~3-4 pts of 2025 revenue growth from non-recurring expansions.

Key Themes and Recent Wins

- In 1H 2024 we signed more net new Platform Subscription Clients than in all of 2023, and our updated expectations of low-20s net new Platform Subscription Clients would represent the strongest year in the company's history for this metric.
- We announced multiple client wins including: SingHealth, the largest group of healthcare organizations in Singapore, and Adena, a 4-hospital system in Ohio, as new clients and an expansion with South Dakota Health Link, a longstanding Health Information Exchange client. As a note, we typically see Health Information Exchange and international contracts take longer to fully ramp into revenue due to lengthier implementation timelines.
- We are pleased to have announced in July that we entered into a new Credit Facility for up to \$225 million with Silver Point Finance, providing us with dry powder to fuel inorganic growth that enables us to continue to be a consolidation platform for our clients.
- We announced the acquisitions of Carevive and Lumeon and these acquisitions provide additional cross-sell opportunity within our expanding client base.
- With the combination of growth from new clients, expansions with existing clients, additional non-recurring revenue, and momentum from acquisitions, we have renewed confidence in our expectation that we will return to double digit topline growth and achieve ~50% Adjusted EBITDA growth in 2025.

Note: This summary contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements include statements regarding our future growth and our financial outlook for the third quarter and full year 2024. See press release dated August 7, 2024 furnished as Exhibit 99.1 on a Current Report on Form 8-K filed with the Securities and Exchange Commission on August 7, 2024 for additional information about our forward-looking statements.

⁽¹⁾ See "GAAP to Non-GAAP Reconciliation: Adjusted EBITDA" for more information about Adjusted EBITDA, including the limitations of Adjusted EBITDA and a reconciliation to net loss, the most directly comparable measure calculated in accordance with GAAP.

⁽²⁾ FY 2024 and Q3 2024 guidance as of latest earnings call on August 7, 2024.

⁽³⁾ We have not reconciled guidance for Adjusted EBITDA to net loss, the most directly comparable measure calculated in accordance with GAAP, and have not provided forward-looking guidance for net loss because there are items that may impact net loss, including stock-based compensation, that are not within our control or cannot be reasonably forecasted.

⁽⁴⁾ Platform Subscription Clients (also referred to as DOS Subscription Clients) include clients who directly or indirectly access our DOS platform or Health Catalyst Ignite via a technology subscription contract. Indirect access may include platform module components such as Healthcare.AI, Pop Analyzer, IDEA, and other platform components.

Health Catalyst Growth & Financial Targets

2024 Targets⁽¹⁾

Revenue

\$304M to \$312M

Adjusted EBITDA

\$24M to \$26M (~125%+ YoY Growth)

Net New Platform Subscription Client Additions

Low 20s

Dollar-Based Retention Rate

100% to 106%

Add'l expected ~3-4 pts of 2025 revenue growth from non-recurring expansions

Business Unit Adjusted EBITDA Margin⁽²⁾

Technology: Low-to-Mid-Teens

Pro Services: ~0%

2025 Targets⁽¹⁾

Revenue

Return to Double-Digit Growth

Adjusted EBITDA

Approximately 50% increase vs. 2024

Business Unit Adjusted EBITDA Margin⁽²⁾

Technology: ~20%

Pro Services: Slightly Positive

2028 Targets⁽¹⁾

Revenue

\$500M+ Revenue

Technology >55% of Revenue

Technology Revenue Growth of 10%+

Adjusted EBITDA

\$100M+

Business Unit Adjusted EBITDA Margin⁽²⁾

Technology: ~30%

Pro Services: ~10%

Technology BU with 'Rule of 40' Profile

(1) 2024 Guidance as of latest earnings call on August 7, 2024.

(2) High-level estimated business unit adjusted EBITDA margin analysis. Estimated business unit contribution profit for Technology and Professional Services based on allocating adjusted gross margin and operating expenses by business unit. Adjusted gross margin segmented by Technology and Professional Services. Operating expenses allocated between Technology and Professional Services based on type of operating expense: Research & Development ("R&D") expenses allocated to Technology business unit; Sales & Marketing expenses allocated between Technology and Pro Services by percentage of adjusted gross profit; General & Administrative expenses allocated between Technology and Pro Services by percentage of total cost of revenue (excluding depreciation & amortization) and R&D.

Note (a): These targets contemplate that Health Catalyst will continue to be opportunistic with tuck-in acquisitions, with a primary focus on technology. These tuck-in acquisitions would benefit annual revenue growth on a pro forma basis.

Note (b): We have not reconciled guidance for Adjusted EBITDA or Adjusted EBITDA Margin to net loss or net loss margin, respectively, the most directly comparable GAAP measures, and have not provided forward-looking guidance for net loss or net loss margin, because there are items that may impact net loss and net loss margin, including stock-based compensation, that are not within our control or cannot be reasonably forecasted.

(1) In 2023

(2) These targets contemplate that Health Catalyst will continue to be opportunistic with tuck-in acquisitions, with a primary focus on technology. These tuck-in acquisitions would benefit annual revenue growth on a pro forma basis.

(3) Overall range from 2017 - 2023 for Platform Subscription Clients, as further defined in our Form 10-K (e.g., excludes clients acquired in Medicity, Able Health, Healthfinch, Vitalware, Twistle, KPI Ninja, ARMUS, ERS, Carevive and Lumeon acquisitions and other non-Platform Subscription Clients).

(4) Platform Subscription Clients only.

(5) See "GAAP to Non-GAAP Reconciliation: Adjusted Gross Profit and Adjusted Gross Margin" for more information about Adjusted Gross Margin, including the limitations of Adjusted Gross Margin and a reconciliation to gross margin, the most directly comparable measure calculated in accordance with GAAP.

(6) See "GAAP to Non-GAAP Reconciliation: Adjusted EBITDA" for more information about Adjusted EBITDA, including the limitations of Adjusted EBITDA and a reconciliation to net loss, the most directly comparable measure calculated in accordance with GAAP. We have not provided forward-looking guidance for net loss, the most directly comparable GAAP measure, to Adjusted EBITDA, and therefore have not reconciled guidance for Adjusted EBITDA to net loss, because there are items that may impact net loss, including stock-based compensation, that are not within our control or cannot be reasonably forecasted.

High Engagement, Satisfaction & Expansion

Produces a high-growth, predictable, recurring revenue business

(1) Excludes impact of Medicity acquisition, which occurred on June 29, 2018.

(2) We calculate our dollar-based retention rate as of a period end by starting with the sum of the Annual Recurring Revenue (ARR) from all Platform subscription clients as of the date 12 months prior to such period end (prior period ARR). We then calculate the sum of the ARR from these same clients as of the current period end (current period ARR).

(3) Vast majority of Other clients were acquired via 2018 Medicity acquisition and 2020, 2021, 2022 and 2023 acquisitions of Vitalware, Healthfinch, Able Health, Twistle, KPI Ninja, ARMUS, and ERS.

Mid-term and Long-term Target Model

		2019 (IPO year)	2020	2021	2022	2023	2024 Targets ⁽³⁾	2028 Long-term Targets ⁽³⁾
Total Revenue Growth		38%	22%	28%	14%	7%	\$304M - \$312M	\$500M+

Net Loss Margin ⁽⁴⁾		(39%)	(61%)	(63%)	(50%)	(40%)		
Adj. EBITDA Margin ⁽⁵⁾		(18%)	(11%)	(5%)	(1%)	4%	\$24M - \$26M	\$100M+

(1) See "GAAP to Non-GAAP Reconciliation: Adjusted Gross Profit and Adjusted Gross Margin" for more information about Adjusted Gross Margin, including the limitations of Adjusted Gross Margin and a reconciliation to gross margin, the most directly comparable measure calculated in accordance with GAAP.

(2) Excluding D&A, stock-based compensation, tender offer payments deemed compensation, loss on extinguishment of debt, acquisition-related costs, net, non-recurring lease-related charges, income tax provision (benefit), interest expense and other (net), restructuring charges and litigation costs. Please see the Appendix and our recent Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for more details.

(3) These targets contemplate that Health Catalyst will continue to be opportunistic with tuck-in acquisitions, with a primary focus on technology. These tuck-in acquisitions would benefit annual revenue growth on a pro forma basis.

(4) See "GAAP to Non-GAAP Reconciliation: Adjusted EBITDA" for more information about Adjusted EBITDA, including the limitations of Adjusted EBITDA. We have not provided forward-looking guidance for net loss, the most directly comparable GAAP measure, to Adjusted EBITDA, and therefore have not reconciled guidance for Adjusted EBITDA to net loss, because there are items that may impact net loss, including stock-based compensation, that are not within our control or cannot be reasonably forecasted.

(5) See "GAAP to Non-GAAP Reconciliation: Adjusted EBITDA" for more information about Adjusted EBITDA margin, including the limitations of Adjusted EBITDA margin and a reconciliation to net loss margin, the most directly comparable measure calculated in accordance with GAAP.

Credit Facility for up to \$225 million⁽¹⁾

Closed new credit facility of \$225 million with Silver Point Capital on July 16th, 2024

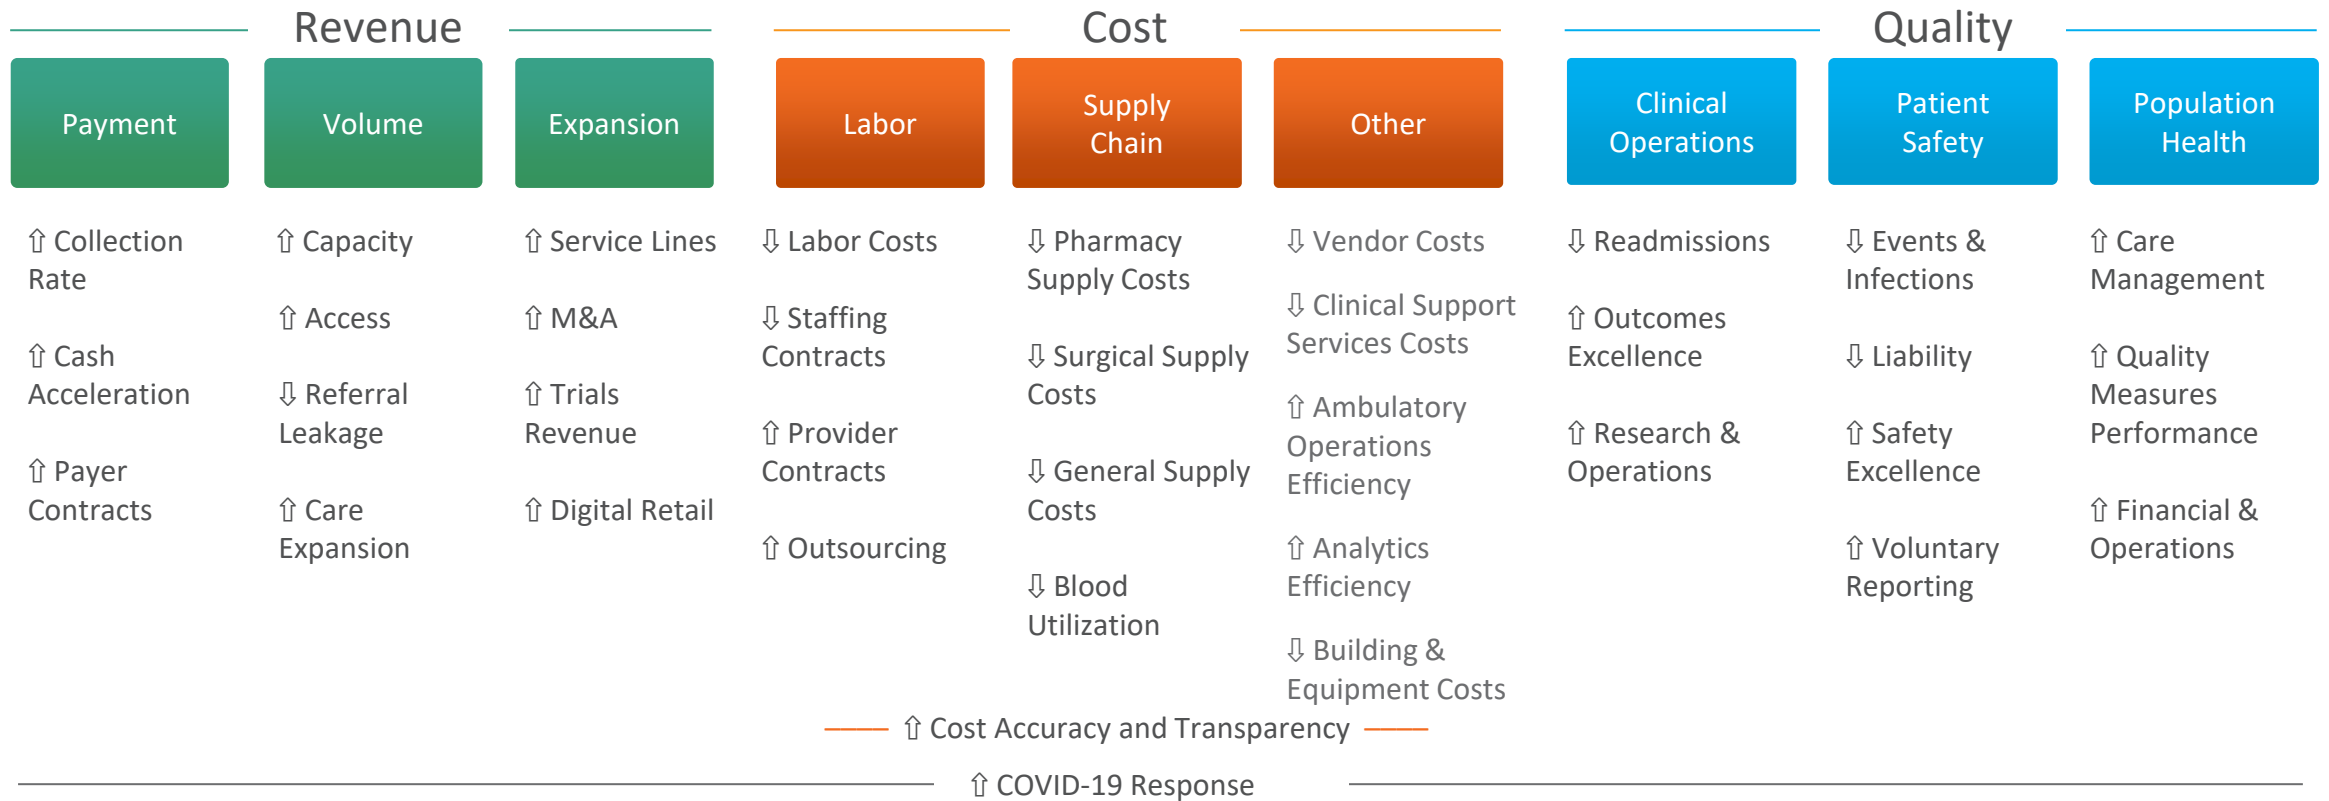

- Credit facility includes \$125 million of upfront funding and \$100 million in aggregate delayed draw capacity (DDTL), each with a maturity date of July 16, 2029
 - \$40 million DDTL available until January 16, 2025 (6 months after close) and \$60 million available until January 16, 2026 (18 months after close)
 - These DDTLs include a commitment fee on any unutilized portion⁽¹⁾
- Interest rate on debt is based on SOFR⁽²⁾ plus 6.5% and interest is payable quarterly in arrears

Use of Proceeds for the Initial Term Loan Include

- Repurchase, repay or pay any or all of Health Catalyst's existing convertible notes due in April 2025
 - Proceeds provide flexibly to repurchase, repay or pay these existing convertible notes at or prior to their maturity
- Working capital and general corporate purposes
- The proceeds from the Delayed Draw Loans, if any, may solely be used to fund the Company's inorganic growth strategy

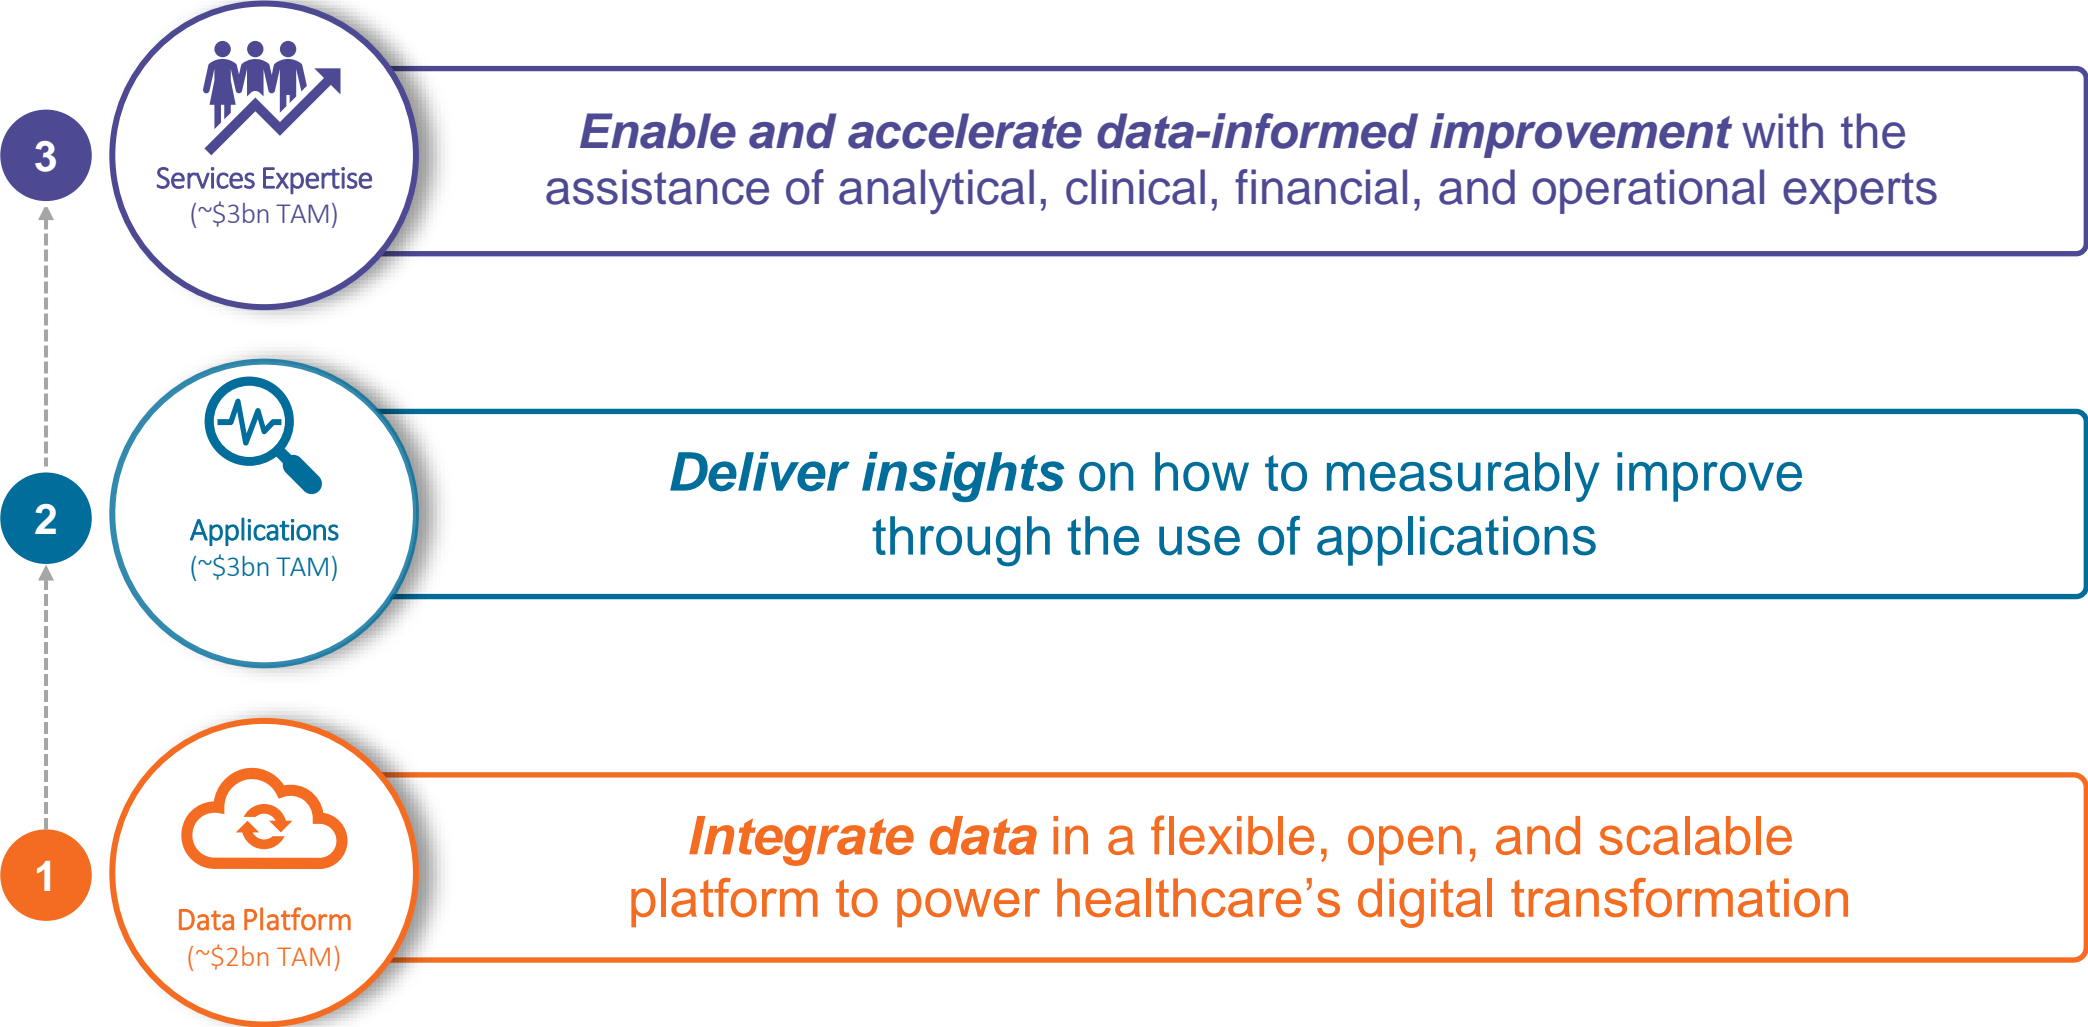

Appendix

Healthcare Success: Proven Methodology

- 1 Integrate All Revenue, Cost, and Quality Data
- 2 Identify Variation and Generate Actionable Analytics Insights
- 3 Apply Expertise to Drive Sustainable Improvements
- 4 Quantify and Communicate Value

Comprehensive Solution for Data-informed Improvement

(1) Health Catalyst has multiple new offerings in Tech-enabled Managed Services (TEMS), an offering area in which we have seen materially more sales and pipeline traction over the last several quarters. As a result, we are assessing the TAM (Total Addressable Market) for these offerings. Our current expectation is that the company's total TAM is materially higher than previously estimated as a result of these TEMS offerings. More details will be provided over time.

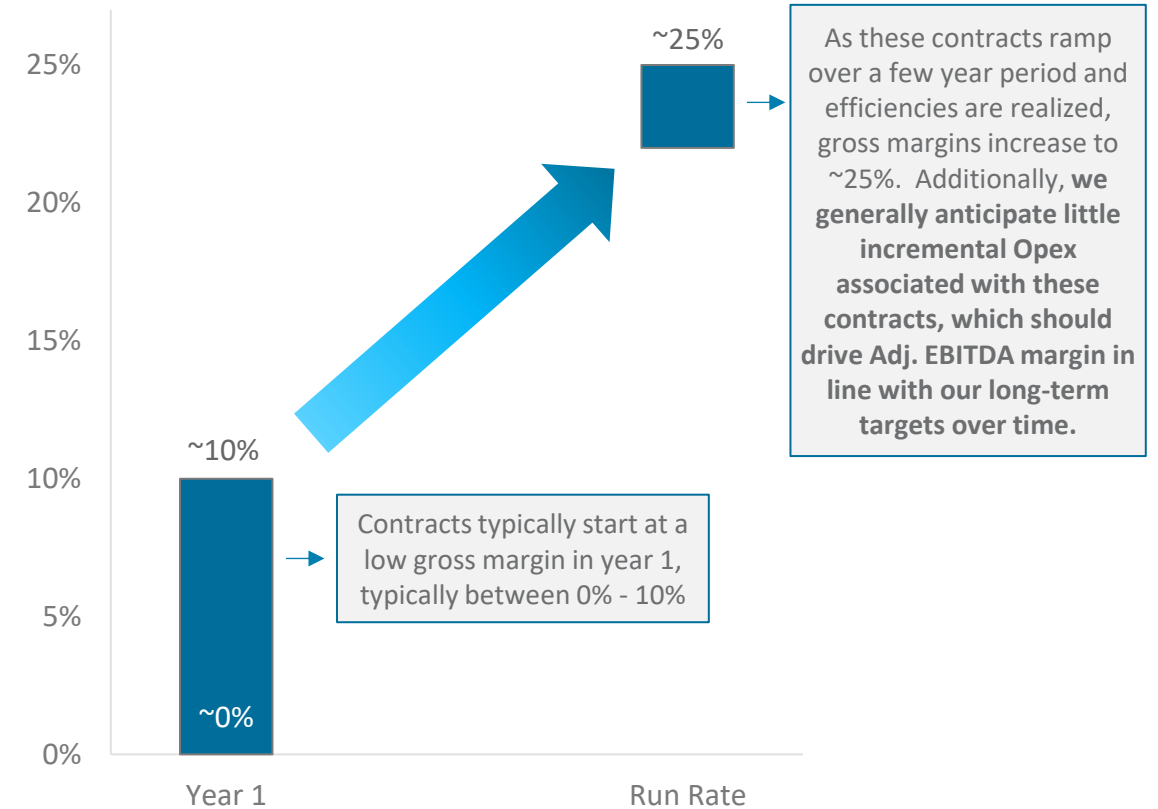

Tech-Enabled Managed Services (TEMS): Unit Economics

Our Tech-enabled Managed Services arrangements include long-term contracts (~5 years) for both Tech and Pro Services, which create loyal client relationships. These deals are typically large & require limited incremental Opex, which drives Adj. EBITDA margin in line with our long-term targets over time.

Typical Contract Structure

- TEMS relationships are structured as **long-term contracts** with **technology subscription renewal or expansion** (at typical technology gross margin levels)
- Health Catalyst typically **re-badges existing health system team members** within the applicable functional area
- **Health Catalyst provides a cost savings to the client's existing spend**, typically starting nine months after contract signing
- The **TEMS Pro Services gross margin starts out low in Year 1 and aims to grow to ~25%** over a few year period by leveraging our technology, finding scale efficiencies, and improving processes to reduce the labor footprint
- Year 5 margin profile roughly represents the steady state margin profile

Illustrative TEMS Pro Services Gross Margin Over Time

High Engagement, Satisfaction & Expansion

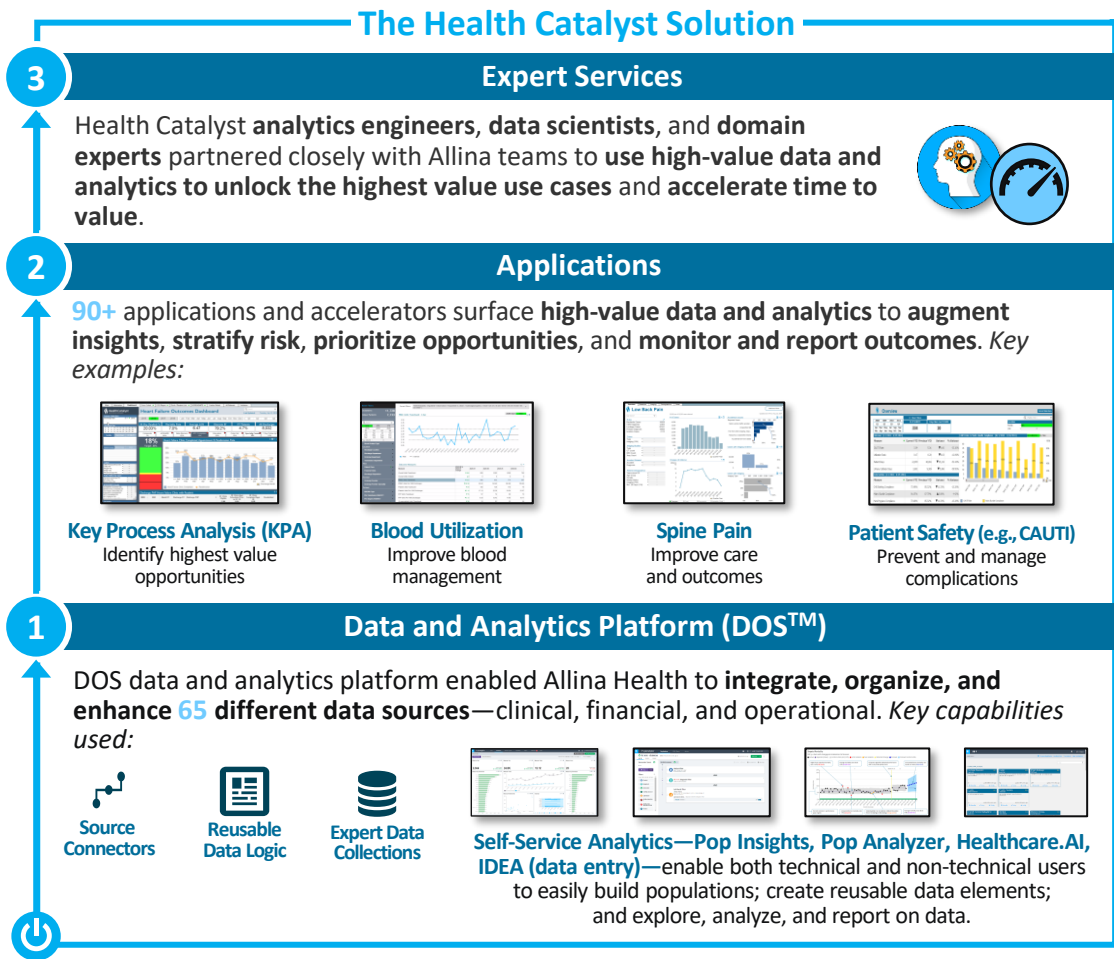

Leads to adjusted technology gross margin expansion

(1) See "GAAP to Non-GAAP Reconciliation: Adjusted Gross Profit and Adjusted Gross Margin" for more information about Adjusted Gross Margin, including the limitations of Adjusted Gross Margin and a reconciliation to gross margin, the most directly comparable measure calculated in accordance with GAAP.

Allina Health: High-Value Data & Analytics Drive \$33M+ in Quality & Operations Improvements

The Challenge: As the breadth, complexity, and volume of healthcare data grow, Allina Health recognized the need to manage data as a strategic asset by ensuring ongoing data utilization and building capacity for continuous, data-driven improvement.

Data-Driven Insights and Measurable Results

Key Opportunities Identified

Length of stay | Readmissions | Supply costs

Key Improvements

Operational Improvements

- **\$33M+ in positive margin impact** by expense reduction and additional hospital inpatient and outpatient revenue.
- **\$2.3M decrease in annual blood product acquisition costs.**
- **Improved care for patients undergoing spine surgery**
 - **31%** of expected **complications** avoided
 - **22%** relative reduction in **surgical site infections**
 - **8.8%** relative reduction in **length of stay**
- **350K+ unique sessions** in Allina Health’s top 10 analytics applications and accelerators in one year.

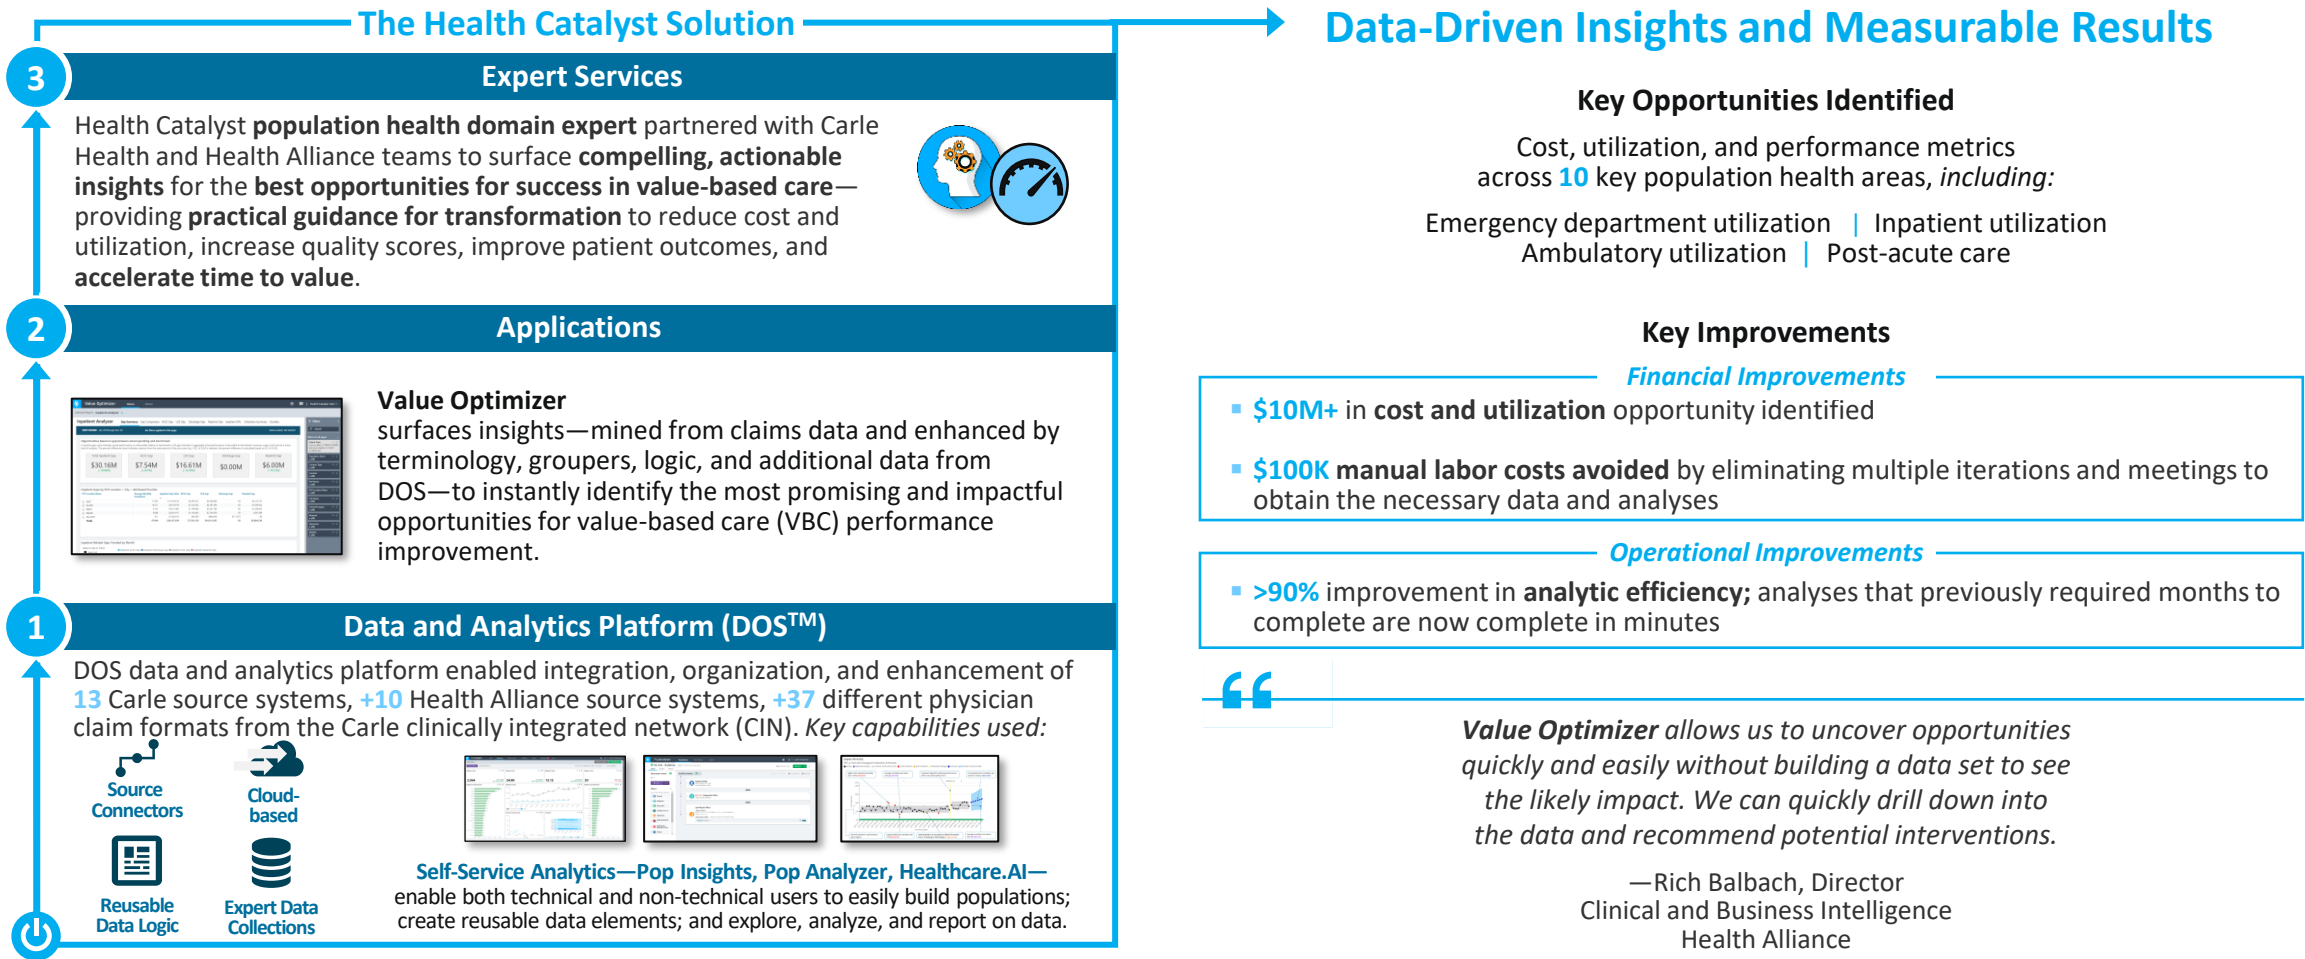

Unleashing the data at Allina Health has been key to increasing organizational efficiency, reducing costs, and improving outcomes for our patients.

—Jonathan Shoemaker, SVP, CIO, Allina Health

Carle Health & Health Alliance: Solution Uncovers \$10M+ in Population Health Opportunities

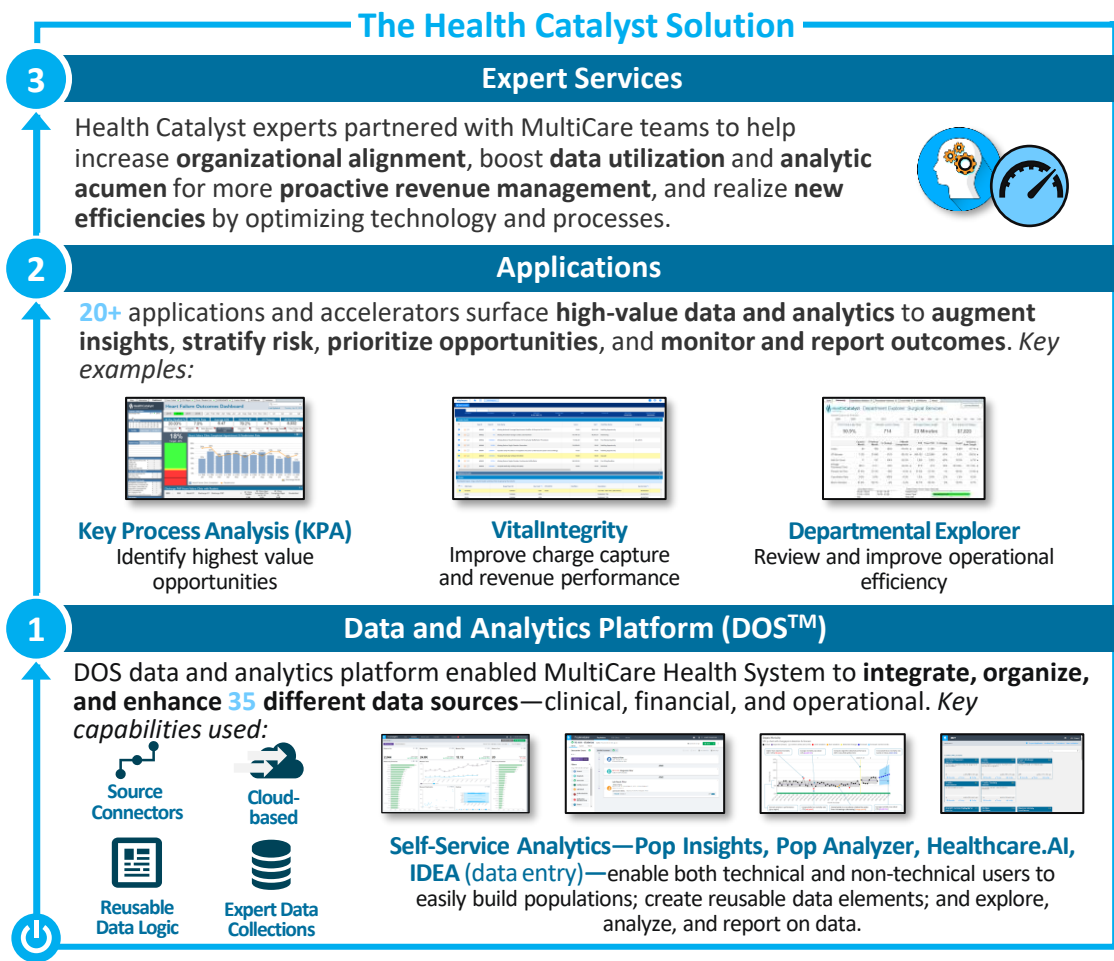

The Challenge: For Carle Health and Health Alliance⁽¹⁾, burdensome manual data collection and reporting processes made it difficult—and time-consuming—to identify and address opportunities for value-based care improvement across its populations.

(1) Health Alliance Medical Plans is a leading provider-driven health plan.

MultiCare Health System: Operational and Charge Capture Improvements Help Realize \$75M+ in Annual Revenue

The Challenge: Inconsistent improvement methods, differing competencies, and inefficient data collection and analytics were impeding MultiCare Health System's ability to improve—leaving financial and operational metrics below expectations.

Data-Driven Insights and Measurable Results

Key Opportunities Identified

Charge capture | Contribution margins | Length of stay

Key Improvements

Financial Improvements

- **\$6.1M net revenue retained**, the result of resolving more than 350 charge capture issues.
- **\$48M in revenue**, surpassing three-year market share goals in year two.
 - **Overall market share** improved in every submarket.

Clinical Improvements

- **\$24M in savings**, the result of a 0.6-day reduction in LOS across the health system.

VitalIntegrity enabled us to efficiently identify and resolve charge capture issues, retaining \$6.1M in net revenue in just three months, while supporting root cause analyses for ongoing process improvement.”

—Nicole Gorder, MBA,
Executive Director of Revenue Integrity & CDM
MultiCare Health System

INTEGRIS: Healthcare.AI Helps Drive Executive Alignment and Decision-making

The Challenge: INTEGRIS Health had high volumes of data but lacked the timely, accurate, and actionable insight needed to support key leadership decisions and drive meaningful improvements.

The Health Catalyst Solution

Data-Driven Insights and Measurable Results

3

Expert Services

Health Catalyst's **analytics engineers, data scientists, and domain experts** partnered with INTEGRIS teams to **optimally leverage integrated data, analytics, and machine-learning-driven algorithms** to identify and realize meaningful opportunities for improvement.

2

Applications

Touchstone® enabled INTEGRIS to analyze risk-adjusted benchmarks and integrated machine-learning algorithms to enhance understanding of performance compared to peer organizations—and proactively prioritize improvement opportunities.

Healthcare.AI capabilities, integrated within Touchstone and other BI tools, deliver **easy-to-use statistical and AI capabilities** to help analysts produce **more accurate, faster insights**.

1

Data and Analytics Platform (DOS™)

DOS data and analytics platform **enabled integration, organization, and enhancement of 10 different data source systems**. *Key capabilities used:*

Source Connectors

Cloud-based

Reusable Data Logic

Expert Data Collections

Self-Service Analytics—Pop Insights, Pop Analyzer, Healthcare.AI enable both technical and non-technical users to easily build populations; create reusable data elements; and explore, analyze, and report on data

Key Opportunities Identified

Value-based care measures performance | Patient safety targeted mortality and readmissions (e.g., sepsis)

Key Improvements

Financial Improvements

- **Aligned executive incentives** based on shared understanding of **highest value and most actionable improvement opportunities**
- **\$500K saved annually** by sunsetting a third-party benchmarking tool

Clinical Improvements

- **50x faster data refresh** than previous benchmarking tool—and benchmarks are now **more adaptive** as well as **more detailed**

*Using DOS and Touchstone has been transformational for our organization. The data and analytics are exactly what our CEO, CMO, and CNE need to set our organization's course. We've effectively **separated the signals from noise in the data** and are able to **clearly see where the organization needs to go**.*

—Benjamin Mansalis, MD
Chief Information Officer, INTEGRIS Health

*We are using generative AI to **exponentially increase the efficiency and overall business success of specific human capital-intensive tasks**. Generative AI has been especially powerful when workflows are driven by narrative/written language, which is common in our chart abstraction use cases today, and **we expect to be equally powerful as we expand our TEMS offerings into other workflow-heavy areas**.*

—Dave Ross
Chief Technology Officer, Health Catalyst

Historical M&A Transactions

\$mm

Transaction value amount ⁽¹⁾

M&A Strategy

- Ability to integrate and scale software applications on top of Ignite platform
- Broadens value proposition to existing and new clients
- Primary focus on applications layer
 - Hundreds of opportunities
 - Gross margin accretive
 - Faster time to market (buy vs. build)
- Additional focus areas in adjacent markets
 - Life Sciences
 - International
- Wide range of targets → tuck-ins to larger transactions
- COVID-19 accelerated certain M&A opportunities
- HCAT is destination of choice for many targets given cultural differentiation

Note: Transaction close date shown

(1) Transaction value includes only the upfront purchase price amount anticipated at the time of the execution of the respective acquisition agreements

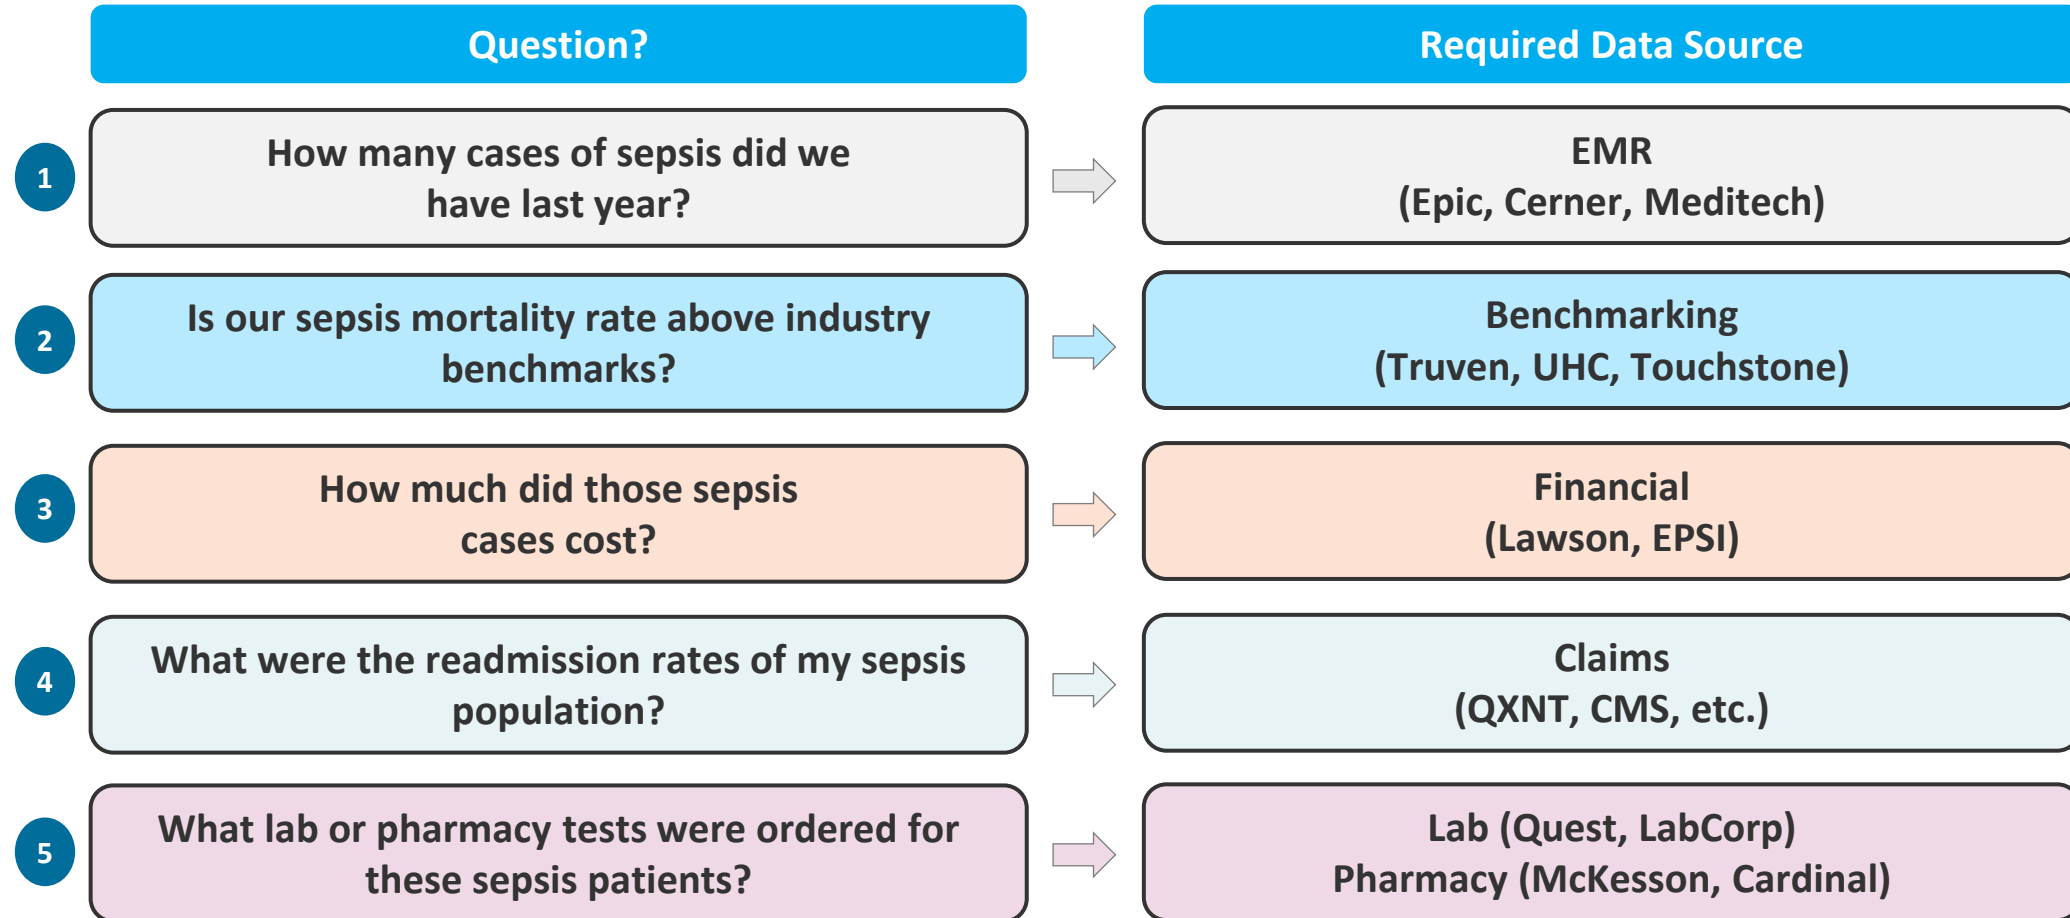

How We Engage With Our Clients

	Option 1	Option 2
	Enterprise	Limited-Access / Modular
Overview	Includes subscription access to Ignite and most/all Applications	Includes subscription access to Ignite only or Ignite plus selected Analytics Applications
Technology Access Subscription	Based on client size and data footprint; includes annual price escalators	Includes opportunity to upsell additional applications
Professional Services Subscription	Recurring access to a specific number of FTEs that is listed in the contract	
Tech-enabled Managed Services	Typically re-badges existing health system team members within the applicable functional area	
<p>Historically the majority of our Platform Subscription Clients have chosen an enterprise contract model</p> <p>Enterprise subscription provides clients budget predictability and use-case flexibility and aligns with clients' increases in improvements, data sources, users, and applications</p>		

A Single Clinical, Financial, or Operational Question Often Requires Integrated Data from Multiple Source Systems

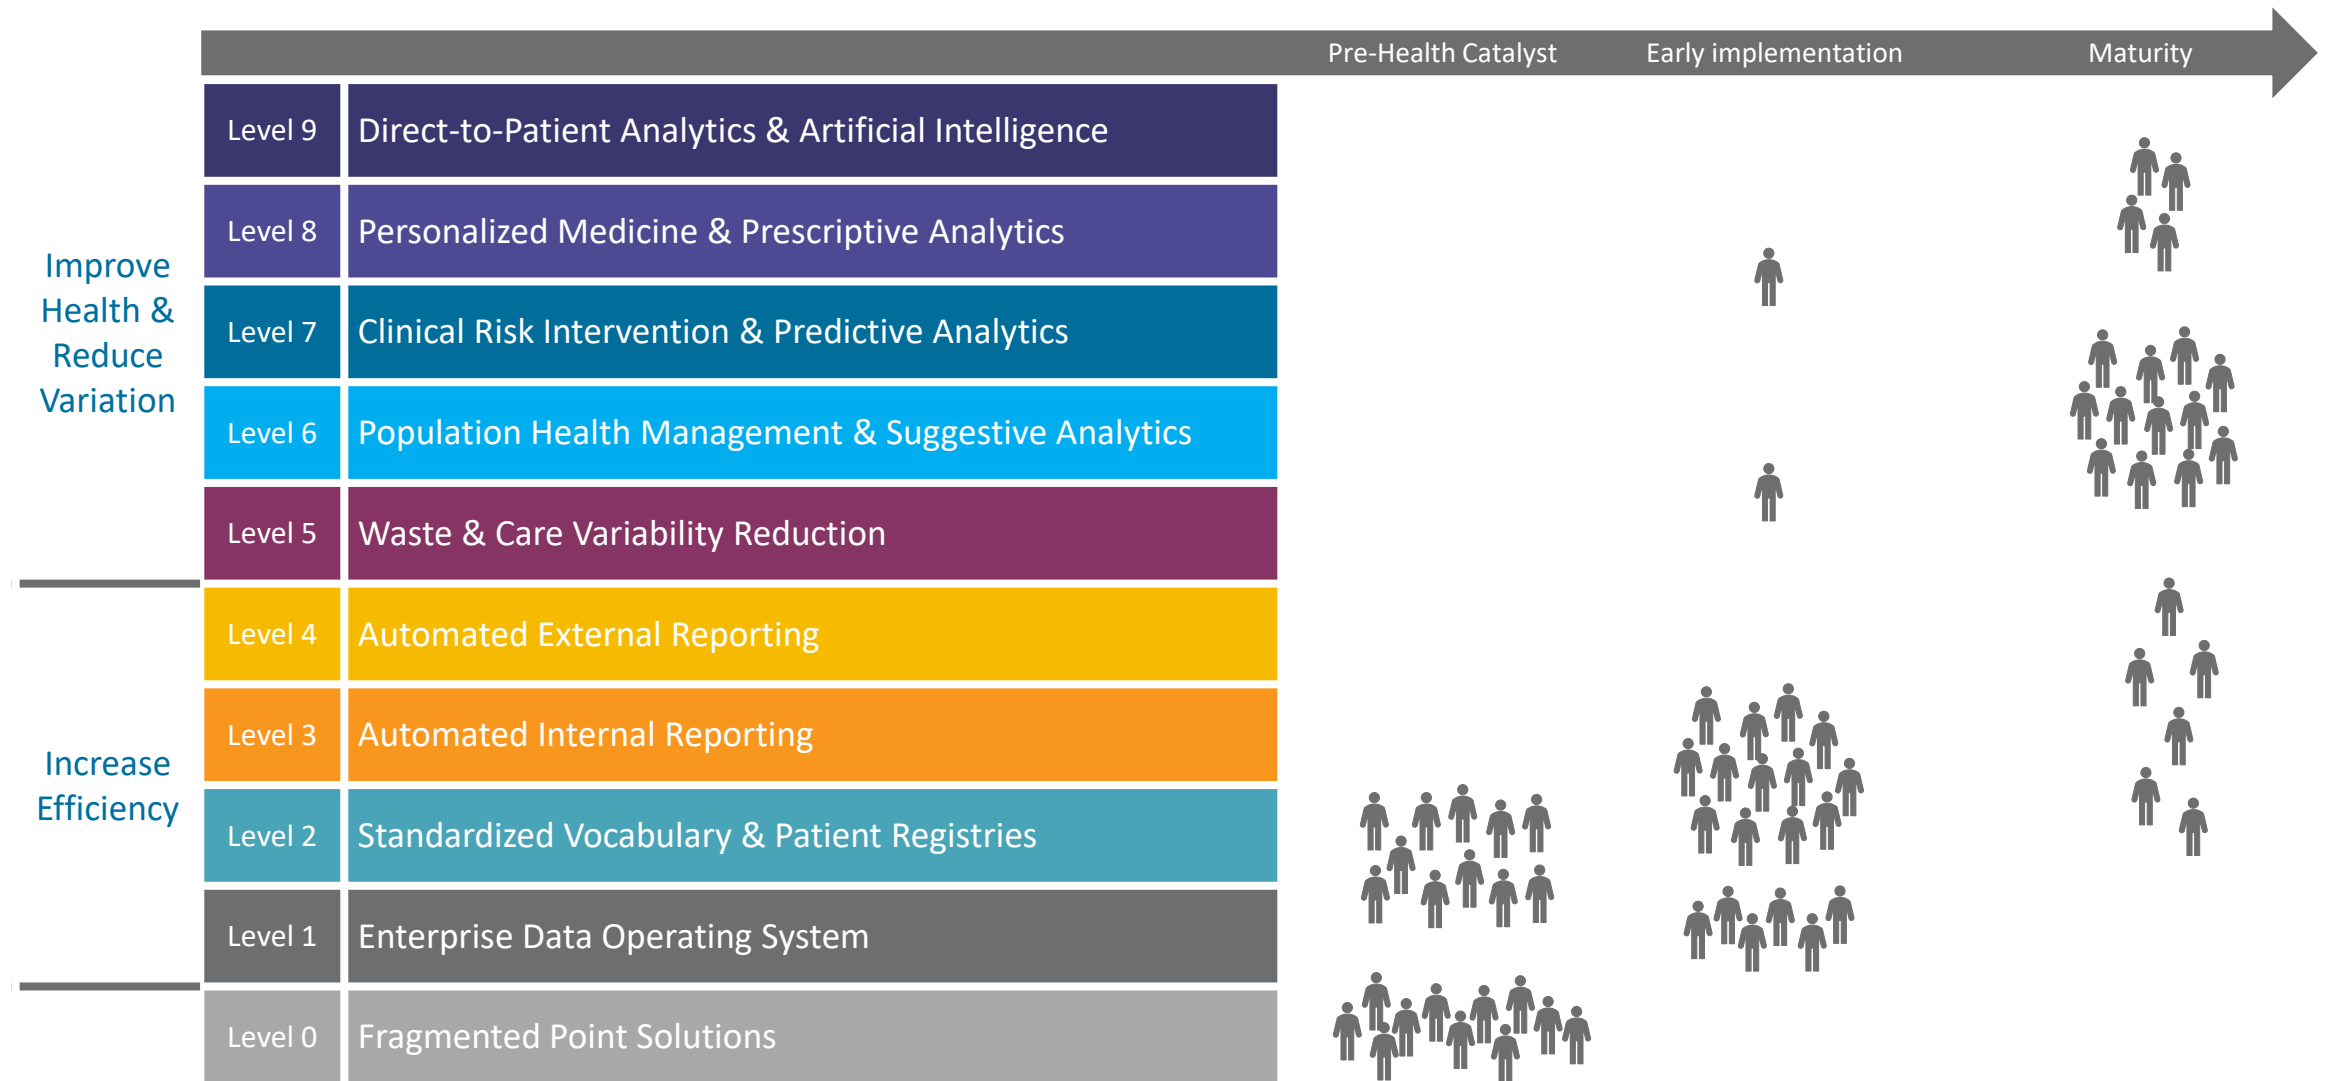

A typical Problem Facing a Healthcare Organization Most Often Requires Data From Multiple Source Systems: Sepsis Example

Adjusted Gross Margin	68%	21%	51%

Note: Gross profit is a GAAP financial measure that is calculated as revenue less cost of revenue, including depreciation and amortization of capitalized software development costs and acquired technology. We calculate gross margin as gross profit divided by our revenue. Adjusted Gross Profit is a non-GAAP financial measure that we define as gross profit, adjusted for (i) depreciation and amortization, (ii) stock-based compensation, (iii) acquisition-related costs, net, (iv) tender offer payments deemed compensation, and (v) restructuring costs, as applicable. We define Adjusted Gross Margin as our Adjusted Gross Profit divided by our revenue. We believe Adjusted Gross Profit and Adjusted Gross Margin are useful to investors as they eliminate the impact of certain non-cash expenses, as well as certain other non-recurring operating expenses, and allow a direct comparison of these measures between periods without the impact of non-cash expenses and certain other non-recurring operating expenses.

(1) Tender offer payments deemed compensation relate to employee compensation from repurchases of common stock at a price in excess of its estimated fair value.

(2) Acquisition-related costs, net included in the Adjusted Gross Profit reconciliation relate to post acquisition restructuring costs and deferred retention expenses incurred as part of business combinations.

(3) Restructuring charges include severance and other team member costs from workforce reductions.

Tender offer payments deemed compensation ⁽¹⁾	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$8,318	\$0
Acquisition-related costs, net ⁽²⁾	\$4,244	\$976	\$5,757	\$4,894	\$27,929	\$16,758	\$446	\$2,114	\$0
Restructuring costs ⁽³⁾	\$2,088	\$2,055	\$8,822	\$8,425	\$0	\$0	\$0	\$0	\$0
Non-recurring lease-related charges ⁽⁴⁾	\$2,200	\$2,681	\$4,081	\$3,798	\$1,800	\$1,398	\$0	\$0	\$0
Litigation costs ⁽⁵⁾	\$0	\$21,255	\$21,279	\$0	\$0	\$0	\$0	\$0	\$0
Adjusted EBITDA	\$10,899	\$7,677	\$11,021	(\$2,487)	(\$11,248)	(\$21,287)	(\$27,363)	(\$38,053)	(\$35,407)
Net Loss as % of Revenue	(23%)	(45%)	(40%)	(50%)	(63%)	(61%)	(39%)	(55%)	(64%)
Adjusted EBITDA as % of Revenue	7%	5%	4%	(1%)	(5%)	(11%)	(18%)	(34%)	(48%)

Note: Adjusted EBITDA is a non-GAAP financial measure that we define as net loss adjusted for (i) interest and other (income) expense, net, (ii) loss on extinguishment of debt, (iii) income tax provision (benefit), (iv) depreciation and amortization, (v) stock-based compensation, (vi) tender offer payments deemed compensation, (vii) acquisition-related costs, net, (viii) restructuring costs, (ix) nonrecurring lease-related charges, and (x) litigation costs. Adjusted EBITDA margin is a non-GAAP financial measure that we define as Adjusted EBITDA divided by net revenue. We view acquisition-related expenses when applicable, such as transaction costs and changes in the fair value of contingent consideration liabilities that are directly related to business combinations, as costs that are unpredictable, dependent upon factors outside of our control, and are not necessarily reflective of operational performance during a period. We believe that excluding tender offer payments deemed compensation, loss on extinguishment of debt, restructuring costs, litigation costs and non-recurring lease-related charges allows for more meaningful comparisons between operating results from period-to-period as these are separate from the core activities that arise in the ordinary course of our business and are not part of our ongoing operations. We believe Adjusted EBITDA and Adjusted EBITDA margin provide investors with useful information on period-to-period performance as evaluated by management and a comparison with our past financial performance, and is useful in evaluating our operating performance compared to that of other companies in our industry, as these metrics generally eliminate the effects of certain items that may vary from company to company for reasons unrelated to overall operating performance.

(1) Tender offer payments deemed compensation relate to employee compensation from repurchases of common stock at a price in excess of its estimated fair value.

(2) Acquisition-related costs, net impacting Adjusted EBITDA includes third party fees associated with due diligence, deferred retention expenses, and post-acquisition restructuring costs incurred as part of business combinations, and changes in fair value of contingent consideration liabilities for potential earnout payments.

(3) Restructuring costs include severance and other team member costs from workforce reductions, impairment of discontinued capitalized software projects, and other minor miscellaneous charges.

(4) Includes the lease-related impairment charges for the subleased portion of our corporate headquarters and duplicate rent expense incurred during the relocation of our corporate headquarters.

(5) Reflects costs related to litigation that are outside the ordinary course of our business. We believe it is useful to exclude such charges because we do not consider such amounts to be part of the ongoing operations of our business and because of the singular nature of the claims underlying the matter.

<i>Adjusted Operating Expenses as % of Revenue</i>	<i>43%</i>	<i>46%</i>	<i>45%</i>	<i>54%</i>	<i>58%</i>	<i>62%</i>	<i>70%</i>	<i>82%</i>	<i>90%</i>

Note: Adjusted Operating Expenses is a non-GAAP financial measure that we define as operating expenses adjusted for (i) depreciation and amortization, (ii) stock-based compensation, (iii) tender offer payments deemed compensation, (iv) acquisition-related costs, net, (v) restructuring costs, (vi) non-recurring lease-related charges and (vii) litigation costs. We view these adjustments to allow for more meaningful comparisons between operating results from period-to-period as these are separate from the core activities that arise in the ordinary course of our business. We believe Adjusted Operating Expenses provides investors with useful information on period-to-period performance as evaluated by management and a comparison with our past financial performance and is useful in evaluating our operating performance compared to that of other companies in our industry, as this metric generally eliminates the effects of certain items that may vary from company to company for reasons unrelated to overall operating performance.

(1) Tender offer payments deemed compensation relate to employee compensation from repurchases of common stock at a price in excess of its estimated fair value.

(2) Acquisition-related costs, net impacting Adjusted EBITDA includes third party fees associated with due diligence, deferred retention expenses, and post-acquisition restructuring costs incurred as part of business combinations, and changes in fair value of contingent consideration liabilities for potential earnout payments.

(3) Restructuring costs include severance and other team member costs from workforce reductions, impairment of discontinued capitalized software projects, and other minor miscellaneous charges.

(4) Includes the lease-related impairment charges for the subleased portion of our corporate headquarters and duplicate rent expense incurred during the relocation of our corporate headquarters.

(5) Reflects costs related to litigation that are outside the ordinary course of our business. We believe it is useful to exclude such charges because we do not consider such amounts to be part of the ongoing operations of our business and because of the singular nature of the claims underlying the matter.
